

CRYO - INDUSTRIAL - SET

Personal Protection Set

Applications

- Handling of cryogenic liquids, as He, H₂, LN₂,
- Shrink-fittings of metallic connections, cryo treatment
- Maintenance of ultra low temperature systems
- Used by firefighters in accidents with ultra low liquids

Working gloves and apron for use in ultra low temperature atmospheres to **-160°Celsius**, especially for industrial use which has a high demand for abrasion resistance.

CE certified, EN511, EN420, EN388, tested and proofed by the daily use in industrial applications.

In addition we recommend to use the single source gas detector for O₂ or other gases.

(please have a look at our leaflet gas detectors.)

CRYO - INDUSTRIAL -SET consist of

Face shield, made of crystal-clear and unbreakable polycarbonat, Warning signs 'Wear face shield', 'Wear protective gloves'. CRYO INDUSTRIAL® APRON CI-A-42, CRYO INDUSTRIAL® GLOVES**

** please insert your required glove size / length M / L or X

Order No Set: CTI 1004 CIM **M**, CTI 1004 CIM **L**, CTI 1004 CIM **X** / CTI 1005 CIG **M**, CTI 1005 CIG **L**, CTI 1005 CIG **X**.

CRYO-INDUSTRIAL® GLOVES

CIW	M	WP	medium	size	9	app. 300 mm, wrist length,	knit cuff	100 %waterproof
